Reduce Costs,
Increase Efficiency,
Stay Compliant.

Experience our Award-Winning
Fleet Management Software

Superior integration, greater cost control, enhanced automation, and improvement of fleet operating efficiencies whilst enhancing your compliance management – all in one system.

Fleet management can be challenging. With so many different fleet compositions, operational requirements and drivers to manage, it can be tough to keep track of things, not to mention time-consuming especially when using disparate management systems and processes. When everything takes longer than it should, it can be hard to stay within budget.

Technology, Functionality, Innovation.

Our fully integrated, innovative software solutions will save you time and help control and reduce costs whilst ensuring full compliance with legislative requirements. Whether you run a small car fleet, a large commercial fleet, are a fleet management company or a leasing business or hire out plant and assets, our technology is designed to make sure things run smoothly and you are in full control.

Jaama is a Microsoft Gold Development Partner

Jaama is proud to have achieved gold application development competency in the Microsoft Partner Network. The achievement demonstrates the company's ability to meet customers' evolving needs in today's fast-moving business operating environment.

Technology - Key②

Key2 is a modern, next-generation asset management solution using an open SQL database, Microsoft .Net2, XML data structure. The fleet industry's first Microsoft Smart Client rich user interface design that is continually updated to ensure you are not investing in obsolete technology.

Your trusted team of experts

Jaama is the industry's benchmark for quality and innovation and is the most recommended fleet software supplier. This is due to the attitude and approach of our team – like-minded individuals who strive for excellence and innovation. This proficiency reflects in everything we do.

Everything in one place

Key2 is a totally integrated modular asset management solution covering all aspects of owning, leasing, hiring, maintaining, repairing, running and disposing of cars, vans, commercial vehicles, plant and other asset related equipment. Decide on your requirements, select the modules to meet them and Key2 will deliver greater control, improved efficiency and levels of service.

Software solutions that save you time

Your time is precious. You need meaningful management information at the touch of a button, instant exception notifications to identify any urgent issues and automated process driven systems to reduce the manual administration of tasks.

Key2 gives you back the time to proactively manage your fleet by removing a huge amount of the administrative burden.
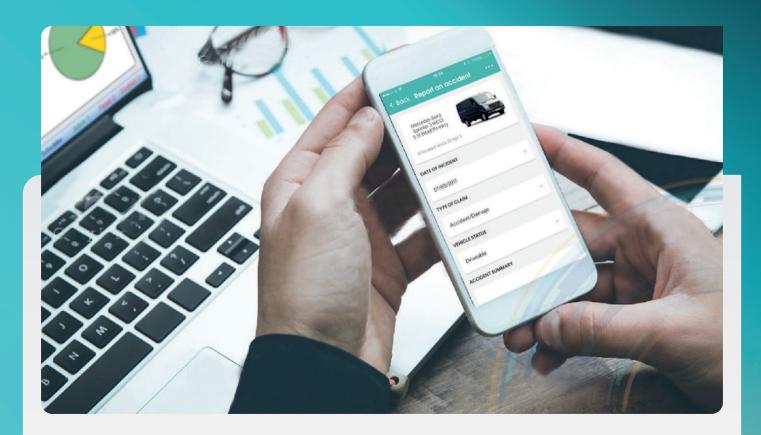

Secure investment

With inclusive bi-annual upgrades, you will always be on the latest version of the software. Our ongoing development and investment ensures that our products are future proofed for your future.

Core Products

✔ Key2 Vehicle Management

A totally integrated vehicle, asset and driver management solution proven to help control costs along with helping to ensure legislative compliance, optimise fleet performance, reduce risk and significantly improve operating efficiencies.

✔ Key2 Commercial Vehicle Management

As operators, you need world-class management software that accommodates the complexities of your business whilst providing administrative efficiencies. Key2 Commercial Vehicle Management includes Earned Recognition Scheme integration, FORS compliance functions, CPC management and full defect management

✔ Key2 Workshop Management

A totally integrated workshop management tool, providing touchscreen technology to help manage the entire workshop operation. Seamlessly integrates to Key2 Vehicle Management.

✔ Key2 Hire Management

This totally integrated solution not only stores information but also actively manages, monitors and intelligently reports on all aspects of the hire operation. Asset optimisation, operator management and a one-click conversion of quotations and orders to contracts significantly reduces

administration time and paperwork.

✔ Key2 Contract Hire & Leasing

The industry leading management software that not only copes with your complex business requirements it also helps optimise assets, reduce overheads, increase efficiency and positively differentiates the customer in the market place, giving them the competitive edge.

✔ Licence Portal

A comprehensive, cost effective, completely secure, web-based licence verification service with the DVLA. The whole process, delivered online, provides a complete audit trail of driver information and licence checks helping towards your duty of care compliance.

✔ MyVehicle App

This award-winning smartphone app not only makes life simpler for drivers, it provides comprehensive control for fleet managers. Compatible with Apple and Android, information uploaded through the app automatically updates the related vehicle, asset or driver record in Key2.

✔ Maintenance Exchange

This 'end to end' maintenance system allows seamless booking, authorisation, invoicing and auditing of vehicle maintenance work. All required documentation typically MoT certifications, vehicle inspection sheets, servicing and routine maintenance documents can be shared between service & repair centres, vehicle owners/operators and the DVSA.

jaama
fleet, leasing and hire software innovators

Privately owned by a team of directors who have spent their entire careers working in the fleet and leasing technology arena, our team have a passion for creating quality and award-winning solutions in partnership with our customers as well as finding innovative ways to reduce costs, improve efficiencies and achieve compliance in the fleet market.

Speedy

ogilvie FLEET

Pertemps the face of recruitment

"Key2 has enabled the implementation of a single system to manage all fleet, driver and journey-related data, vital for ensuring compliance and efficient management of a fleet our size."

Mark Woodworth

Head of logistics, Speedy Hire

"With Key2 we have an industry-leading system that through continual collaboration on enhancements and new developments ensures we remain at the cutting-edge. System development has been the engine room of underpinning Ogilvie's business growth in recent years."

Andy Stephen

Business Support Director, Ogilvie Fleet

"Utilising licence checking services with Jaama has saved Pertemps 40 hours per week in administration time – so the actual cost saving is huge. "The huge benefit of the portal is the instantaneous checks. A driver can come into one of our branches and have their licence checked there and then, which is great and we know instantly if they are legally permitted to drive."

Tim Stokes

Fleet IT Manager, Pertemps

Switching software supplier or procuring a new system has never been easier
