

MYVEHICLE SMARTPHONE APP

Why MyVehicle App?

MyVehicle App from Jaama is an award-winning smartphone app for the fleet industry that not only makes life simpler for drivers but also provides centralised real-time visibility for fleet managers.

Jaama's MyVehicle App complements the Key2 system to reduce administration, information uploaded through the app automatically updates the related asset record in Key2 without manual intervention.

MyVehicle App is available from the App Store and can be deployed to both Android and iOS devices.

Fleet Managers

Manage the fleet of vehicles and drivers without leaving your desk and without the requirement of remote workers making unnecessary trips to the office.

Contract Hire and Leasing Companies

Adding value to the service and tools you provide to your customers will help you stand out in the marketplace. Configure to your own brand and offer to your customers to enhance your service.

Plant Hire Companies

You need to ensure your assets are maintained in a compliant and timely manner to reduce downtime and optimise worth. MyVehicle App ensures you keep on top of your asset compliance and maintenance.

Paperless Vehicle Checks

Daily walk-around vehicle checks have never been easier as defects are reported directly within the app.

- ✓ Real time defect and nil defect reporting can ensure maintenance and defect rectifications are dealt with immediately which minimises costly downtime
- ✓ Photos of defects can be uploaded to ensure that the rectification requirements are fully understood early on in the process
- ✓ Configurable vehicle and asset checklists ensures the applicable items are being checked based upon the asset type
- ✓ Full audit trail of defect reporting ensures tight control on compliance management
- ✓ Remove paper checklists which are both expensive and inefficient

MYVEHICLE

SMARTPHONE APP

Accident Reporting

When incidents happen, it's essential to capture vital information at the scene.

- ✓ MyVehicle App has a step-by-step process to prompt the driver to report the essential details
- ✓ Information uploaded automatically creates an accident record in Key2 and alerts the necessary people within your organisation
- ✓ Photos from the scene can be uploaded through the app and automatically stored within the related accident record

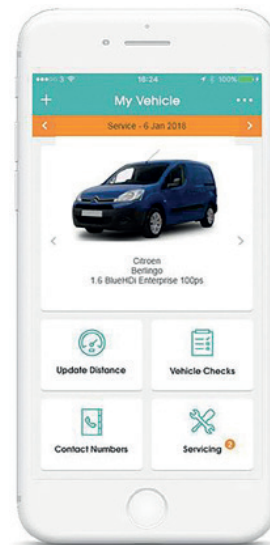

Quick and Easy Access

Instant access to vehicle and contact information at your fingertips.

- ✓ Essential information on allocated vehicles and assets
- ✓ Full vehicle defect history in the event of roadside checks
- ✓ View company fleet policy
- ✓ Dial emergency contacts directly from the app including breakdown recovery
- ✓ Notifications of impending MOT and service dates promotes driver awareness about their vehicle

Update Vehicle Mileage Reading On-the-Go

- ✓ Enforce mandatory odometer readings as part of drivers' vehicle check to ensure data within Key2 is as up to date as possible
- ✓ Recorded odometer readings automatically update the vehicle records within Key2

No Connection? No Problem!

Designed to work even when offline, MyVehicle App will instantly upload information to Key2 as soon as a connection becomes available.
