

EARNED RECOGNITION SCHEME

Achieve Earned Recognition Status with Key2

Jaama's multi award-winning Key2 fleet and asset Management software is a validated IT system for the DVSA Earned Recognition Scheme.

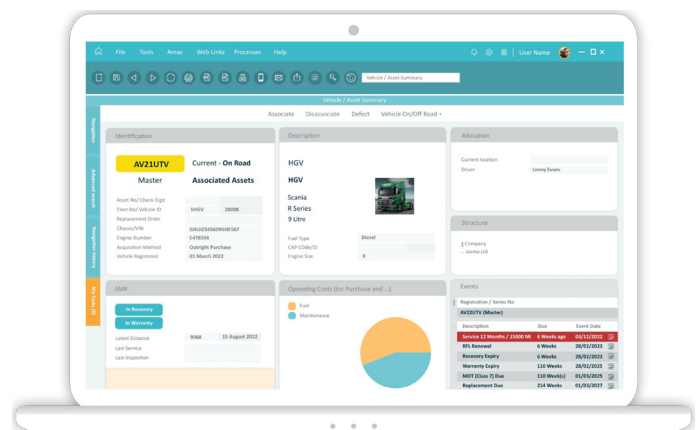

The scheme is designed for vehicle operators of all sizes to help reduce the number of roadside stops and checks by DVSA enforcement officers.

Digital Vehicle System

Operators need to have an IT system such as Key2 to measure themselves against a set of defined key performance indicators (KPIs) and electronically report this directly to the DVSA.

- ✓ Key2 enables operators to create, store and manage compliance data.
- ✓ View real-time status of DVSA KPI's with the interactive dashboard.
- ✓ Drivers can complete defect checklists via the integrated MyVehicle app, removing the need for paperwork and manual intervention.

Automatically send KPI information to the DVSA database which includes data captured from:

- ✓ Walk-around vehicle inspection checks.
- ✓ Servicing.
- ✓ MoT's.

The information recorded in Key2 will demonstrate to the DVSA that fleets are practicing robust and timely compliance practices.

EARNED RECOGNITION SCHEME

Save Time and Money

By utilising Key2 and sharing data with the DVSA you will significantly reduce routine roadside inspections, which will save you time and money.

- ✓ Reduce the risk of delayed customer deliveries and subsequent penalties.
- ✓ Less roadside checks, increasing productivity from available driver hours.

Defect Reporting

- ✓ Key2 has a robust defect reporting system replacing existing defect log books.
- ✓ Key2 retains a full auditable history of maintenance and defect rectification as recommended by DVSA.
- ✓ Recording of rectification work is entered once which automatically updates vehicle maintenance history and the defect and planning schedule.

Benefits for Vehicle Operators

By joining the Earned Recognition Scheme vehicle operators will be able to:

- ✓ Prove they're an exemplary operator, which can help when you bid for contracts and raise your profile with potential customers.
- ✓ Use the DVSA earned recognition marque in your marketing and publicity, showing you're serious about road safety.
- ✓ Have your details shown on GOV.UK, so people know you've achieved the high standards needed to join the scheme.

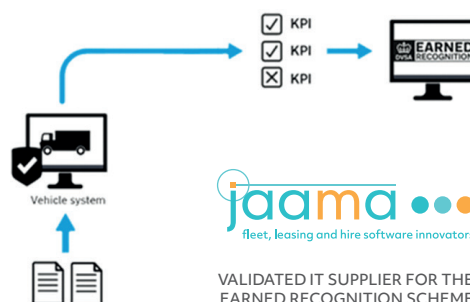

Maintenance Exchange

Maintenance Exchange, powered by Jaama (fully integrated with Key2) is an 'end to end' maintenance system allowing seamless booking, authorisation, invoicing and auditing of vehicle maintenance work.

- ✓ Compliance data and documentation can be submitted directly to the DVSA for the Earned Recognition Scheme.
- ✓ Provides a complete audit trail of service, maintenance and repair work undertaken on commercial vehicles for compliance requirements.
- ✓ Provides fleet operators with a secure and transparent audit trail of service, maintenance and repair work undertaken on commercial vehicles for compliance requirements.

How to Get Started

- ✓ You must operate a robust, electronic, compliance management system that keeps an audit of vehicle maintenance, such as Key2.
- ✓ You need to have held an Operator's Licence for at least two years.
- ✓ You should not have had any regulatory actions by a traffic commissioner in the last two years.

Switching software supplier or procuring a new system has never been easier.
